(54) PERSONAL ORNAMENT AND METHOD OF MANUFACTURING THE SAME

(57)Abstract:

PROBLEM TO BE SOLVED: To promote the health of a body and beautification by exhibiting a physical effect in combination with a mental effect as an ornamentation effect by personal ornaments by finding the fact that silica and black silica are optimum as the personal ornaments best meeting the purposes for the promotion of the beautification and the health and treatment of diseases and the like and utilizing such ores for various kinds of personal ornamental members and personal ornaments.

SOLUTION: This method consists of a step of adding about 5% powdery silica and black silica to a synthetic resin, such as polyurethane, and agitating and mixing them, a step of extruding this agitated mixture to a bar shape by an extruder or the like, and a step of molding a personal ornament body by shaping the extruded bar-shaped object to various kinds of shape.
